

AIOH24 Scientific Storytelling.

ANNUAL SCIENTIFIC CONFERENCE & EXHIBITION *What's your story...*

Monday 2nd December - Wednesday 4th December, 2024

PERTH Convention And Exhibition Centre

Congratulations to Our Early Bird Competition Winners!

The first 100 early bird registrants were entered into a draw for the chance to enjoy a scenic joy flight over Perth in a seaplane, generously sponsored by our early bird sponsor. This unique experience offers a breathtaking aerial view of Perth's stunning landscape, providing a memorable start to this year's event.

Congratulations to our winners, and thank you to all who registered early!

Stay tuned for more exciting event highlights as we approach the AIOH24 Conference!

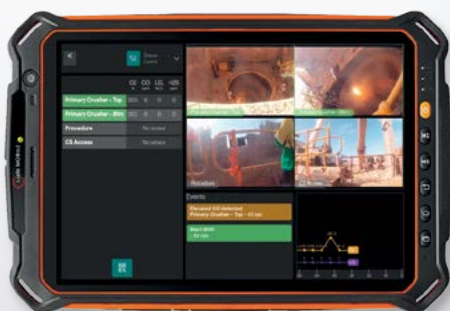

Conference attendees still have access to the special **discount code C24AIOH**, granting them reduced rates on all [Swan River Seaplanes](#) services. Our discount code will allow conference attendees to take to the sky and explore the beautiful surrounds of Perth.

Real-time Monitors and Remote Monitoring

Introducing the **Remote Hygienist Assistant** powered by **AES LiveSite**

- 1 Real-time Monitoring:**
The **Remote Hygiene Assistant (RHA)** allows hygienists to monitor atmospheric contaminants such as dusts and vapours as well as noise at worksites remotely, helping them identify hazardous levels instantly and take immediate action.
- 2 Data-Driven Decision-Making:** **RHA** provides hygienists with data analytics and trends over time, enabling informed decisions about control measures, scheduling maintenance, and optimising work processes.
- 3 Reducing On-Site Visits:**
By relying on real-time data from **RHA**, hygienists can reduce the frequency of on-site visits, saving time and resources for both the hygienist and the company.
- 4 Worker Safety:**
RHA helps identify high-risk exposure areas, allowing hygienists to implement targeted safety measures and train workers accordingly, ultimately reducing the risk of illness.
- 5 Documentation and Reporting:**
RHA can automatically generate comprehensive reports on exposure levels, compliance, and safety measures, streamlining the documentation process for hygienists.
- 6 Remote Training:**
Hygienists can use **RHA** to provide remote training and guidance to workers and supervisors on control and safety practices, ensuring greater adherence to protocols.

SUSTAINABILITY AT AIOH24

Our Commitment to a Greener Conference

We are committed to making AIOH24 as sustainable as possible. Here are some of the eco-friendly initiatives you'll experience at this year's conference:

Eco-friendly satchels and drink bottles:

Every attendee will receive a bamboo satchel, and a reusable drink bottle made from Bisphenol-A (BPA) free materials. The Perth Convention and Exhibition Centre (PCEC) will also have water refill stations available, so feel free to bring your own bottle too!

Digital conference materials:

In an effort to reduce paper waste, all conference proceedings will be digital, unless pre-ordered.

You can access everything you need through our conference app, which includes all conference materials - eliminating the need for printed handouts.

Compostable coffee cups:

PCEC provide fully compostable coffee cups, helping to reduce waste without compromising on convenience

Sustainable food service:

During breaks and social events, we will serve food using either reusable crockery or biodegradable packaging, paired with bamboo cutlery.

Food waste composting:

All food waste and coffee grounds at the PCEC are composted to support sustainability efforts.

Sustainable suppliers:

AIOH and PCEC have made a conscious effort to collaborate with sustainable suppliers for the conference, including Promotions Warehouse, Perth Expo Hire, Bax AV, and Phenomenon Creative Events.

PCEC have teamed up with OzHarvest – a food rescue organisation who collect food going to waste and deliver it to those in need.

To read more about the PCEC sustainability strategy [click here](#).

We're excited to take these steps toward a more sustainable future and encourage you to join us in reducing waste throughout the conference!

CONFERENCE APP

The **AIOH24 conference App** will soon be ready for download. The app will be your ultimate sidekick for all things conference related— providing easy access to schedules, speaker information, session details, and networking opportunities.

Stay tuned for step-by-step instructions on how to download the app and make the most of your AIOH24 experience.

3M™ Secure Click™ Reusable Full Face Mask FF-800 Series

Speaking diaphragm

- Helps to provide easier communication
- ✓ Increased safety: no need to remove the respirator in the contaminated area
 - ✓ Increased productivity: no need to leave the work area to communicate

Secure Click™ filter connection

- Simply align the connections and push until you hear a click
- ✓ Confidence: satisfyingly clear connection
 - ✓ Easy: facilitates easy filter replacement

Push button seal check

- A positive pressure seal check has never been easier
- ✓ Confidence: wearer and safety manager know that the respirator has been donned correctly

Exhalation valve cover

- Helps direct exhaled breath and moisture downwards
- ✓ Comfort: helps to keep you cool & dry

NEW

Comfort head cradle (6 points)

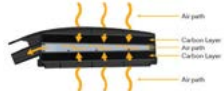

- Helps to reduce pressure points & hair pulling
- ✓ Comfort: during long periods of wear

Large lens

- A wide field of view for excellent peripheral vision
- ✓ Comfort & productivity

Dual-flow gas & vapour filters

- Offers good breathability
- ✓ Comfort & productivity

Swept back filter design

- Improved weight distribution and better clearance of field of view.
- ✓ Comfort & productivity

Is it time to upgrade your respiratory protection?
Designed with smart & intuitive features, the 3M™ Secure Click™ Full Face Reusable Respirator FF-800 Series helps protect workers from particulates and a wide variety of gases and vapours when used with approved 3M™ Secure Click™ Filters.

Full Conference Program is Live!

As the chair of this year's conference, I am delighted to see the enthusiastic response to our early bird ticketing. If you haven't secured your ticket yet, there's still time! This year's event continues

the AIOH's proud tradition of bringing together like-minded professionals to share their stories and advance the field of Occupational Hygiene.

The AIOH has a remarkable track record of fostering collaboration and innovation and our planning committee together with the AIOH team has been working hard to ensure that we uphold this proud legacy. We are eager to embrace the theme of Scientific Storytelling, showcasing how powerful narratives can drive our discipline forward.

We have an incredible lineup of world-renowned speakers who will share their insights and experiences. Our scientific program includes a live recording of a podcast that will reach listeners in over 100 countries. We are honoured to welcome a New York Times best-selling author as our keynote speaker. For the first time in AIOH history, we will also feature a debate where selected members can showcase their critical thinking and persuasion skills on a topic relevant to every hygienist. Additionally, we have the opportunity to listen to the inventor of the Outrage Model, with Peter Sandman joining us to answer questions from our members. These are just a few of the remarkable speakers presenting this year.

Our social schedule promises to be just as engaging, with a comedy hypnotist, a joy flight via seaplane over the beautiful city of Perth for some of our lucky early bird registrants, and a fantastic lineup of weekend and evening activities. This year, we are also excited to present the 3M Night with a storybook theme, adding a unique and creative twist to our social event.

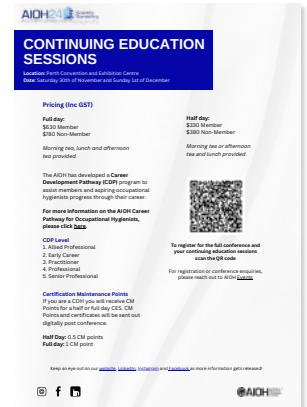

On behalf of our planning committee, we hope to see you at the event!

Zach Bentley, Occupational Hygiene Specialist, Chevron

Do You Need More COH Points?

Enhance your professional development and earn valuable COH points by participating in the Continuing Education Program before the AIOH24 Conference.

COH members can earn 0.5 CM Points for a half-day session and 1 CM Point for a full-day session. Don't miss this opportunity to boost your credentials while gaining expert insights into key topics in occupational hygiene.

Newcomers Speed Networking Event and Mentoring Workshop:

Hosted by AIOH Mentoring Committee

Join us for the Newcomers Speed Networking Event on **Sunday, 1st December, from 5:00pm to 5:45pm**, hosted by the AIOH Mentoring Committee! This fantastic opportunity allows newcomers to connect with peers, expand their professional network, and build supportive relationships in the field of occupational hygiene. The event will take place at the Liberty Bar and Summer Garden at PCEC, offering a welcoming atmosphere for all attendees.

Additionally, don't miss the Mentoring Workshop on **Monday, 2nd December, from 12:30pm to 1:30pm**, where you can gain valuable insights and skills for effective mentoring relationships. This interactive session will provide practical tools and strategies to enhance your impact as a mentor or mentee in the industry.

Spot prizes are up for grabs!

Submit Your Questions! Opportunity to Interact with a World Leader in Risk Communication

Peter Sandman is an expert in risk communication, specialising in managing public outrage and crisis communication using his "Risk = Hazard + Outrage" formula. We invite you to submit your questions for Peter ahead of the conference. This will allow Peter to provide insightful and relevant answers to your questions.

AIOH Headshot Café

Supporting the Sue Davies Foundation

We're thrilled to offer you the chance to update your professional portfolio with a fresh headshot at the AIOH Headshot Café - all while giving back to the Sue Davies Foundation.

About the Sue Davies Foundation

The Sue Davies Foundation, as trustee for the Sue Davies Scholarship Trust, provides vital support for individuals looking to advance their careers in occupational hygiene. The foundation aims to help promising professionals grow in the field and become catalysts for the development of occupational hygiene in their own countries. The Sue Davies Award was created in honor of the late Sue Davies, whose invaluable contributions helped establish the Occupational Hygiene Training Association (OHTA). Sue was a key figure during the early years, providing wise counsel and driving the creation of an international training scheme and qualifications framework.

How It Works:

1. Donate \$20 to the Sue Davies Foundation [here](#)
2. Once your donation is confirmed, you'll receive an email with a link to book your spot
3. Arrive 5 minutes before your scheduled time, camera-ready
4. SMILE!

This is your opportunity to enhance your digital presence while supporting a great cause.

With thanks to our 2024 Conference Sponsors
